

Cable Ties and Fixings

Fixing products for edges

Edge fasteners

The MSC-Series provides an excellent alternative to managing wire and PV cables where plastic fasteners are not the preferred method, for extreme in subtropical and tropical climate zones and floating PV applications. Designed for effortless insertion, this stainless steel EdgeClip has a high extraction force that tolerates extreme environments and provides assurance that the cables are securely affixed to a panel or substructure.

Features and benefits

- Integrated design allows for easy insertion by hand
- Rounded edges protect the cable insulation from damage
- Double-compression design that accommodates up to two cables and various sizes (4-6 mm²)
- High extraction force for withstanding extreme conditions
- Made from SS304 stainless steel

Fixing Element MSC2 for Solar Panels.

MATERIAL	Stainless Steel (SS304)
Operating Temperature	-80 °C to +538 °C
Flammability	non-burning

Metal solar clips, MSC-Series, heavy duty
