Our new SDE Micro Crimp tool combines the power found in our complete line of lithium ion battery tools with the light weight and ergonomic design found in our family of quality manual hand tools. It's the best of both worlds!

Designed with the operator in mind the SDE Micro Crimp tool weighs less than 1 kg (2.2 lbs), uses 90% less force than a typical manual hand tool and contains a built in LED light for illuminating your crimp and work area. And, for added flexibility, the SDE Micro Crimp tool utilizes the same easily interchangeable SDE die sets found in our portable hand tools or electric bench equipment so that your tools can grow as your needs grow.

CRIMP FASTER IN 3 EASY STEPS

1. CLAMP
Quick takeup: Pull trigger part way and adjust terminal and wire to the proper position before crimping.

2. CRIMP
Depress trigger completely to activate the motorized crimp feature.

3. RELEASE
Release trigger and the jaws will open automatically.
