

# Preassembled Cordset Components

## Tri-Tap Premold

- Multiple piece unit that reduces the number of crimp connections on an extension cord from 9 down to 3. Now you can crimp all three terminals at once.
- Significantly reduces the amount of material required for overmolding, thus substantially reducing the cycle time and cost.
- Available in assembled or component form.
- Molded of high impact resistant 6/6 "Nylon".
- Rated at 15 Amps/125 Volts.
- Terminating equipment is available. Consult Heyco for details.
- See page 5-4 for wire stripper information.
- **Heyco Contacts MUST be used in Heyco premolds.**

PART NO.	DESCRIPTION	WIRE RANGE	DIE	CRIMP PUNCH	ANVIL
*S7400	Female Receptacle Black	14-10 AWG	S7400SXX5	C856, C857	C851
*S7403	Female Receptacle Black	18-14 AWG	S7403SXX5	C862, C863	C851

### Components For Tri-Tap Premold

• **S7400**

- 0387 Premold Body
- 0388 Premold Cover
- 8075 T-tap Blade (14-10 AWG)
- 8076 T-tap Blade (14-10 AWG)
- 8087 T-tap Ground (14-10 AWG)

• **S7403**

- 0387 Premold Body
- 0388 Premold Cover
- 8077 T-tap Blade (18-14 AWG)
- 8078 T-tap Blade (18-14 AWG)
- 8092 T-tap Ground (18-14 AWG)
