

## Barrel-Type Drift Pin, 13/16-Inch

Klein Tools Barrel-Type Drift Pins are manufactured for durability. They are machined from quality alloy steel, which is forged and heat-treated for strength. The tough, drop-forged steel will properly end-pein in use.

### Specifications

|                 |                   |                 |                 |
|-----------------|-------------------|-----------------|-----------------|
| Type:           | Barrel            | Overall Length: | 8" (20.3 cm)    |
| Material:       | 8640 Steel        | Diameter:       | 0.813 (2.1 cm)  |
| Point Diameter: | 0.438" (11.11 mm) | Weight:         | 13.6 oz (218 g) |
