

TWISTED PAIR PRODUCTS

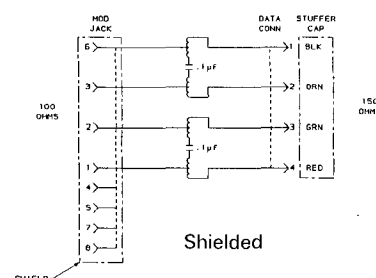

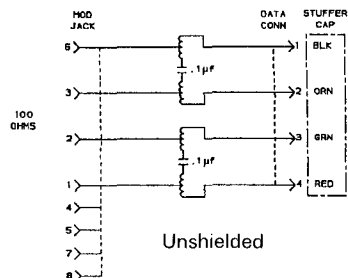

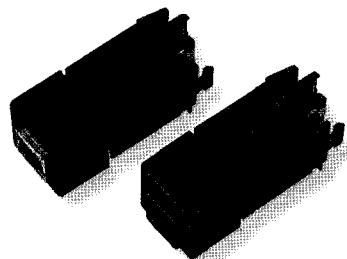

Impedance Matching Adapters & Thinnet Balun

10/100BASE-Tx Impedance Matching Adapters

Product Facts

- :: Used to adapt 100 Ohm 10BASE-T or 100BASE-Tx equipment to 150 Ohm shielded cable
- :: Available with unshielded or shielded modular jacks
- :: 8-Position jacks (pins 1, 2, 3 & 6 active)

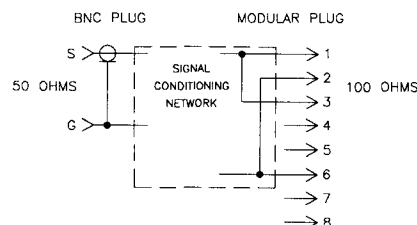

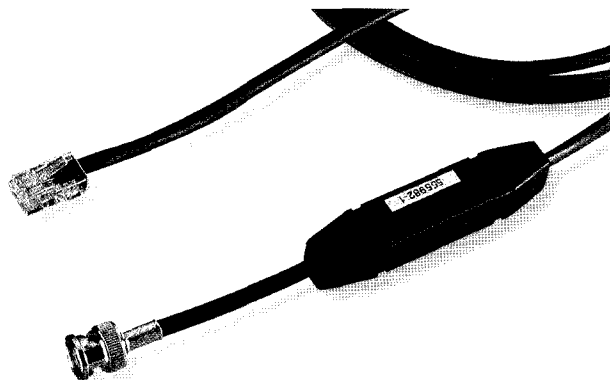

Description		Part Number
10/100BASE-Tx Impedance Matching Adapters	Unshielded	558420-1
	Shielded	558421-1

Thinnet (10BASE2) Balun (UTP)

Product Facts

- :: Allows a Thinnet coaxial cable segment to be replaced with up to 350 ft of twisted pair cable
- :: Maximum of 6 devices may be daisy-chained after the twisted pair link using standard Thinnet cable and BNC Tee connectors
- :: These baluns are not compatible with 10BASE-T

Description	Active Pin Numbers	Part Number
With 14ft Twisted Pair Cable	1 & 2, 3 & 6	555982-2
