Description
[Technical Data](#)
[MSDS](#)

Convenient syringe dispenser ideal for touch up and repair of surface mount assemblies.

A unique mixture of high grade synthetic resin and thixotropic agents designed specifically for use with high temperature lead free and conventional Sn/Pb alloys. It provides the fluxing activity levels that promote fast wetting action and maximum wetting spread.

- Excellent wettability
- No clean
- Non-conductive, Non-tacky residues
- Compatible with Lead free & Leaded Solder Systems
- Thixotropic paste
- RoHS compliant

Our flux paste is a no clean formulation therefore the residues do not need to be removed for most applications. If a [Conformal Coating](#) needs to be applied on to the board for moisture protection then removal of the residue is require. In such a case, you will require the use of a [Flux Remover](#).

Excellent wettability, no clean, non-conductive, non-tacky residues, compatible with lead free & leaded solder systems, thixotropic paste and RoHS compliant.
