

**Description:**

The CV Series of transient surge suppressors is disc-shaped varistors that can be operated continuously in low and medium voltage electronic circuits, as well as across AC power lines.

Due to their radial lead construction, these components require very little mounting space. They are available in five model sizes from 5 to 20 mm and feature a wide range of AC operating voltages from 50 V to 680 V.

**Features:**

- AC operating voltage (Vrms) from 50 V to 680 V
- DC operating voltage (Vdc) from 65 V to 895 V
- Broad range of current and energy handling capability
- For RMS voltages  $\leq 40$  V see ZV leaded series
- 5 model sizes available from 5 mm to 20 mm
- UL1449, 3<sup>rd</sup> Ed. and CSA C22.2 certified
- +85 °C continuous operating temperature
- Lead-free and halogen-free

General Technical Data	
Climatic Category	40 / 85 / 56
Operating Ambient Temperature	-40 °C to +85 °C
Storage Temperature Range	-40 °C to +125 °C
Threshold Voltage Temperature Coefficient	< +0.05 % / °C
Isolation Voltage Capability	> 2.5 kV
Response Time	< 25 ns
Insulation Resistance	> 1 Gohm

Standard Packaging Options

**RoHS Compliance**

Stackpole Electronics has joined the worldwide effort to reduce the amount of lead in electronic components and to meet the various regulatory requirements now prevalent, such as the European Union’s directive regarding “Restrictions on Hazardous Substances” (RoHS 3). As part of this ongoing program, we periodically update this document with the status regarding the availability of our compliant components. All our standard part numbers are compliant to EU Directive 2011/65/EU of the European Parliament as amended by Directive (EU) 2015/863/EU as regards the list of restricted substances.

RoHS Compliance Status						
Standard Product Series	Description	Package / Termination Type	Standard Series RoHS Compliant	Lead-Free Termination Composition	Lead-Free Mfg. Effective Date (Std Product Series)	Lead-Free Effective Date Code (YY/WW)
CV	Low and Medium Voltage Leaded Varistor	Leaded	YES	100% Matte Sn	Always	Always

**“Conflict Metals” Commitment**

We at Stackpole Electronics, Inc. are joined with our industry in opposing the use of metals mined in the “conflict region” of the eastern Democratic Republic of the Congo (DRC) in our products. Recognizing that the supply chain for metals used in the electronics industry is very complex, we work closely with our own suppliers to verify to the extent possible that the materials and products we supply do not contain metals sourced from this conflict region. As such, we are in compliance with the requirements of Dodd-Frank Act regarding Conflict Minerals.

**Compliance to “REACH”**

We certify that all passive components supplied by Stackpole Electronics, Inc. are SVHC (Substances of Very High Concern) free and compliant with the requirements of EU Directive 1907/2006/EC, “The Registration, Evaluation, Authorization and Restriction of Chemicals”, otherwise referred to as REACH. Contact us for complete list of REACH Substance Candidate List.

**Environmental Policy**

It is the policy of Stackpole Electronics, Inc. (SEI) to protect the environment in all localities in which we operate. We continually strive to improve our effect on the environment. We observe all applicable laws and regulations regarding the protection of our environment and all requests related to the environment to which we have agreed. We are committed to the prevention of all forms of pollution.
