## GPDF357B

**Part No:**  
GPDF357B

### Description:

Embedded GPS L1/L2 Dual Pin Stacked Patch Antenna  
Covering 1227.6/1575.42 MHz

### Features:

Dual-Pin Stacked Patch, Dual Feed

Covering Bands:

- GPS L1
- GPS L2
- Galileo E1

Low Axial Ratio

Dimensions: 35\*35\*7.15 mm

Ground Plane size: 35\*35 mm

RoHS & Reach Compliant

# 1. Introduction

The Taoglas GPDF357B is a precision-engineered embedded stacked passive GPS patch antenna supporting both GPS L1/Galileo E1 and GPS L2 bands. The stacked, two-pin feed design, consists of two patches, the bottom patch measuring 35\*35\*4mm and the top patch at 25\*25\*3mm, each patch with one pin feed, resulting in compact dimensions of just 35\*35\*7.15mm. The antenna has been tuned and tested on a 35\*35mm ground plane, specifically for GPS L1/Galileo E1 at 1575.42MHz and GPS L2 at 1227.6MHz.

Utilizing two patches ensures that a low axial ratio can be achieved. The antenna exhibits excellent gain and good radiation pattern stability leading to a reliable GNSS fix, even in areas of weaker signal strength. All these elements combined can ensure the best possible positional accuracy for your device. The GPDF357B is manufactured and tested in a TS16949 first tier automotive approved facility.

## Features:

- Multi-GNSS, high-performance passive antenna
- Excellent signal to noise ratio (C/N0)
- Good 2DRMS and fast TTFF
- Axial ratio < 2dB typ. across all bands

## Benefits:

- Excellent positional accuracy
- Great for use in difficult environments
- Multiband improves the receiver's position estimation in terms of accuracy and reliability
- Ideal antenna solution for multiband RTK systems.

**Typical applications include:**

- High accuracy positioning and navigation systems
- UAVs, Robotics & Autonomous Vehicles
- Mapping & GIS
- Transportation & Telematics
- Precision Agriculture
- Public Safety, Search & Rescue
- RTK Systems

This patch can also be purchased in a version tuned specifically for a larger 70\*70mm ground plane, the GPDF357A. Patch antennas can also be tuned to customer-specific device environments, subject to NRE and MOQ. Contact your regional Taoglas customer support team to request these services or additional support to integrate and test this antenna's performance in your device.

## 2. Specifications

## 6. Packaging

12pcs GPDF357B per Tray  
Weight: 360g

72pcs GPDF357B per PE Bag and Inside Box  
Dimensions: 261\*152\*118 mm  
Weight: 3Kg

288pcs GPDF357B per carton  
Dimensions - 330\*280\*270mm  
Weight -12.4Kg

Changelog for the datasheet

**SPE-20-8-062-A – GPDF357B**

<b>Revision: B (Current Version)</b>	
Date:	2021-06-12
Changes:	Updated Pin Length to 2.4mm Updated Drawing
Changes Made by:	Dan Cantwell

**Previous Revisions**

<b>Revision: A (Original First Release)</b>	
Date:	2020-05-29
Notes:	Initial Datasheet Release
