**Status:**  
**Description:**

3-Tier Pagoda Outdoor Light - Bronze

**Features**

Copper-free aluminum construction provides increased corrosion resistance
Sturdy die-cast aluminum construction provides durability
Architectural bronze color blends into landscape and deck areas
Aluminum mounting tube cap houses and protects wire connection (ground installed fixtures)
PVC ground tube provides an innovative installation method saving costly labor and traditional installation materials (ground installed fixtures)
Wire connectors and ground wire enable safe, easy power connections
Fixtures use regular household voltage, 120V.
Easy to install, only three wire connections per fixture are required
No need to pour concrete, all connections are made above ground.

**Application**

Low maintenance indoor/outdoor lighting where moisture, dirt, dust, corrosion and rough service are problems.
Low-profile fixture design for where low ceiling height presents a light problem
To light cold storage facilities, walkways, bridges, tunnels and security locations.
Used with colored globes as warning, caution or directional lights.
Ground-level safety/security lighting to illuminate dark areas
Suitable for use in wet locations
