

Cat6 Gigabit Snagless Molded Slim UTP Patch Cable with Right-Angle Connectors (RJ45 M/M), Blue, 2 ft.

MODEL NUMBER: **N201-SR2-BL**

Description

The N201-SR2-BL Cat6 Gigabit Snagless Molded Slim UTP Patch Cable is perfect for connecting network components like printers, computers, copiers, routers, servers, modems and switches in high-density data centers. Designed for fast transmission and excellent signal quality, this two-foot blue cable ensures peak performance throughout your local area network (LAN).

Manufactured from 28 AWG copper wire, the four-pair stranded UTP N201-SR2-BL delivers speeds up to Cat6 Gigabit/1 Gbps. Protected by a PVC jacket, this cable is more than 35% smaller in diameter than standard Cat6 cable, which increases airflow in tight spaces and makes it easier to install around corners and through cable management panels.

Space-saving right-angle RJ45 male connectors are easy to plug into patch panels and switches located in adjoining spaces inside a rack. The plugs' snagless design protects the locking tabs against being damaged or broken off during installation. Integral strain relief ensures the cable and connectors last a long time.

Features

Perfect Solution for Your Networking Needs

- Ideal for connecting components like printers, computers, copiers, routers, servers, modems and switches in high-density data centers
- Designed for fast transmission and excellent signal quality
- Ensures peak performance throughout your LAN
- Delivers speeds up to Cat6 Gigabit/1 Gbps

Highlights

- Over 35% slimmer than standard Cat6 cables
- Rated for Cat6 Gigabit/1 Gbps communications
- Snagless right-angle RJ45 male connectors
- Easy to route through cable management panels
- High-quality 28 AWG stranded copper wire

Package Includes

- N201-SR2-BL Cat6 Gigabit Snagless Molded Slim UTP Patch Cable (M/M), 2 ft.

No-Snag Right-Angle RJ45 Connectors

- Male connectors plug easily into patch panels and switches in adjoining rack spaces
- Molded snagless boots protect locking tabs from damage during installation

Special Slim Design

- More than 35% smaller in diameter than standard Cat6 cable
- Increases airflow in tight spaces
- Increased flexibility for installing around corners and through cable management panels

Premium Construction for Superior Performance

- Made from 28 AWG copper wire
- PVC 4-pair stranded UTP
- Integral strain relief for long life

Specifications

MODEL TEXT	
Key Benefit	Connects network components like printers, computers, copiers, routers, servers, modems and switches. Ideal for high-density data centers. Slim design increases airflow in tight spaces.
INPUT	
Cable Length (ft.)	2
Cable Length (m)	0.6
PHYSICAL	
Color	Blue
CONNECTIONS	
Side A - Connector 1	RJ45 (MALE)
Side B - Connector 1	RJ45 (MALE)
