

## Features

The package contains:

- An executable for Windows
- A java application for MacOS, Linux and Windows

## Description

This application, called STSW-LINK005, can be used to upgrade the firmware of the ST-LINK/V2 board through the USB port.

For more details refer to the release note RN0084.

## Ordering information

STSW-LINK005 is available for free download from STMicroelectronics.

## Revision history

**Table 1. Document revision history**

Date	Revision	Changes
18-May-2015	1	Initial release.

**IMPORTANT NOTICE – PLEASE READ CAREFULLY**

STMicroelectronics NV and its subsidiaries (“ST”) reserve the right to make changes, corrections, enhancements, modifications, and improvements to ST products and/or to this document at any time without notice. Purchasers should obtain the latest relevant information on ST products before placing orders. ST products are sold pursuant to ST’s terms and conditions of sale in place at the time of order acknowledgement.

Purchasers are solely responsible for the choice, selection, and use of ST products and ST assumes no liability for application assistance or the design of Purchasers’ products.

No license, express or implied, to any intellectual property right is granted by ST herein.

Resale of ST products with provisions different from the information set forth herein shall void any warranty granted by ST for such product.

ST and the ST logo are trademarks of ST. All other product or service names are the property of their respective owners.

Information in this document supersedes and replaces information previously supplied in any prior versions of this document.
